

Arabic Alphabet Recognition Basket for Toddlers

RAISING MUMEENS

The Arabic alphabet recognition basket is designed to help kids recognise an Arabic alphabet from a selection of other alphabets. This reinforces their knowledge of each alphabet, what it looks like, and how it is pronounced.

How to Use This Worksheet

On each page, there is a basket containing thirteen letters. The letter in the triangle at the top of the basket is the letter that the child is supposed to pick out from the other letters in the basket.

So, if there is ش in the triangle at the top, then they need to hunt for ش among the other letters and circle them.

Copyright

This worksheet is designed for personal, classroom, and madrasah use ONLY. You can download it and print it as many times as you want or share it with friends for free.

Under no circumstance should you sell this worksheet or pass it off as yours. Neither should you host it on your website or print it out for sale. If you are linking to this worksheet from your website, please link to the blogpost containing the worksheet and not the download page itself.

If you are printing this for school or madrasah use, please remember that you cannot charge the students for this worksheet.

For further clarifications, questions, suggestions or collaboration, please send an email to admin@raisingmumeens.com or visit www.raisingmumeens.com.

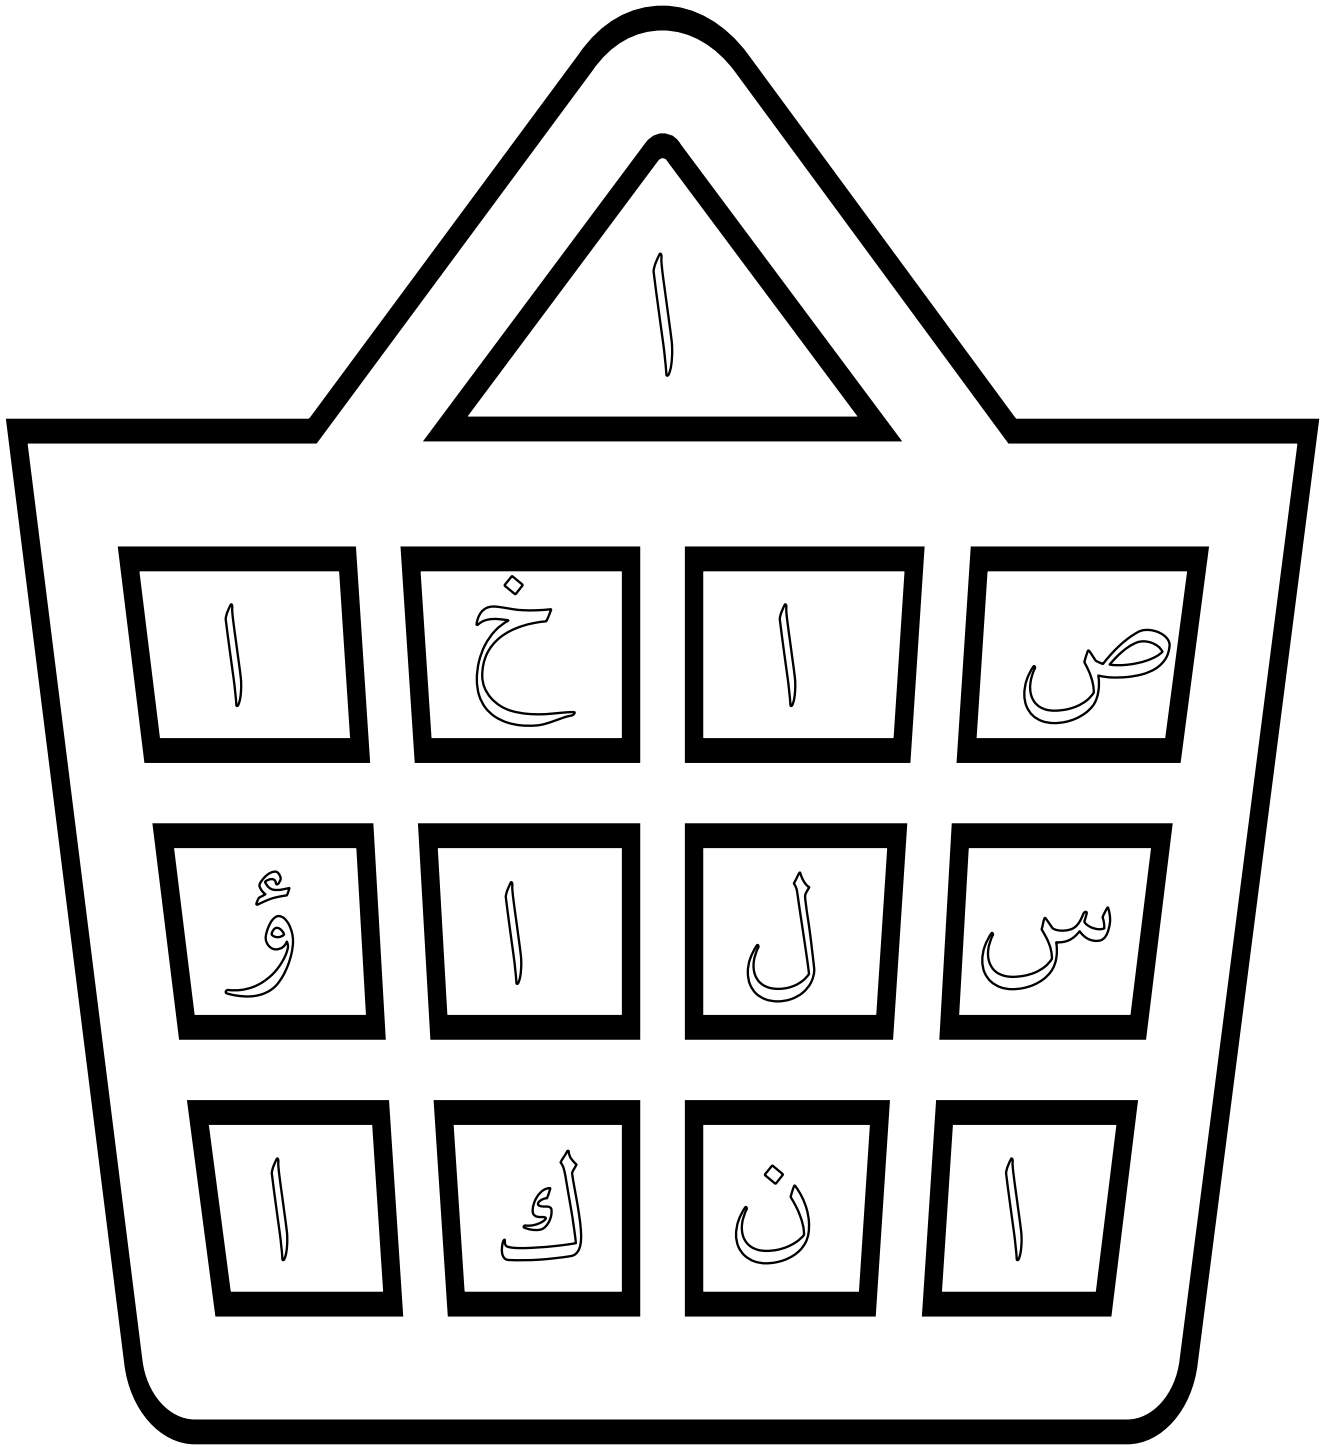

Thank you for downloading. I hope you find it beneficial.
